ARTICULATION AGREEMENT
TRANSFER OF COURSES BETWEEN MT. HOOD COMMUNITY COLLEGE
and OREGON STATE UNIVERSITY

The catalog of record is 1997-98

It is agreed that students transferring from Mt. Hood Community College's Architectural Engineering Technology program to Oregon State University's College of Home Economics and Education will be given university credit for Apparel, Interiors, Housing, and Merchandising courses as listed below.

On courses with college transfer markers (e.g. AIHM 178) all credits transfer to OSU if grade of C or higher is earned. For technical-level courses (e.g., 6.512) only the lower number of credits (MHCC or OSU equivalent) will be recorded. Under OSU policies for block transfer of vocational-technical credits, credit for vocational courses is awarded only upon completion of the baccalaureate degree programs that are covered in this agreement.

The Bachelor of Science in Housing Studies will normally require two years or more to complete. This agreement is based upon an evaluation of the rigor and content of the residential design programs at both MHCC and OSU and is subject to a yearly re-evaluation of both colleges.

The following list of Mt. Hood Community College Architectural Engineering Technology courses will be accepted by OSU as meeting the technical requirements, in part, for a Bachelor of Science degree in Housing Studies.
