Submit proposals to: Office of Academic Programs and Academic Assessment
110 Kerr Admin -- Oregon State University

For instructions, see <http://oregonstate.edu/ap/curriculum/cati.html>. Please attach Proposal, Library Evaluation (performed by the library), Liaison Correspondence, Faculty Curriculum Vitae, and Budget Sheets, as appropriate.

Check one:

Full Proposal

- New degree program
- New certificate program or administrative unit
- Major change in existing program
- Establishment of a new College or Department

Abbreviated Proposal

- Rename of an academic program or unit
- Reorganization – moving responsibility for an academic program from one unit to another
- Merging or splitting an academic unit
- Termination of an academic program or unit
- Suspension or reactivation an academic program or unit

For proposals to establish a new center or institute, contact the Research Office (737-3437).

For requests to offer existing certificate and degree programs at new locations, use the New Location Request Form available on the Web: <http://www.ous.edu/aca/aca-forms.html>

TERMINATION OF BACHELOR OF SCIENCE IN MEDICAL TECHNOLOGY

Institution: Oregon State University
Proposing College: College of Science
Proposing Program: General Science/Microbiology
CIP Number: 511005
September 1, 2007
Proposed Effective Date: Fall 2008

A. Reasons for change:

Medical Technology (a discipline now formally known as Clinical Laboratory Science) is a Bachelor of Science degree program offered jointly by OHSU and OIT in Portland. Students may apply for admission to this one year program after completing three years in pre-clinical laboratory science at OSU (3+1 program). The OSU Bachelor of Science in Medical Technology has existed on the books for years as a way to award a second bachelor's degree to students who complete the OHSU/OIT program by transferring credits from the one year of professional training back to OSU. In fact, very few students have chosen to transfer credits back from OHSU/OIT to OSU. This degree has been awarded to only 3 students in 20 years.

The existence of this degree at OSU is confusing to students. It has the unfortunate side effect of attracting students to enroll here who don't realize that they must transfer to get the needed training in Medical Technology. We have had veterans and others needing retraining who have moved here with the idea that we offer a full fledged Medical Technology degree. Other students in the program have found that they are not accepted to the one year of professional training after three years and then must struggle to find a degree that they can complete in their remaining year at OSU. We are proposing a pre-clinical laboratory science option in General Science as a clearer route for those students who want to pursue Clinical Laboratory Science. Completion of the first three years would make students eligible to apply to the 3 +1 program at OHSU/OIT, but if students are not successful, they can complete a degree with a final year at OSU. Alternatively, students may pursue a degree in Biochemistry/Biophysics, Biology, Chemistry, Microbiology, or Zoology in order to expand their career options.

Currently there are about 12 students in Medical Technology at OSU. These students would be informed by e-mail and hard copy letter of plans to terminate this program. Any students currently in the Medical Technology major would be allowed to finish this degree, if they met the requirements. The students would also be offered the opportunity to transfer to General Science, pre-clinical laboratory science. Advising for this option will be handled by the Advising Office in the College of Science.

B. Location within the institution's organizational structure:

This degree is housed in the College of Science and has been advised by a faculty member in the Department of Microbiology.

C. Objectives, functions: N/A

D. Resources needed, if any: N/A

E. Funding sources: N/A

F. Relationship to institutional mission: N/A

G. Long-range goals and plans for unit: N/A

H. Relationship of the proposed unit to programs at other institutions in the state:

This program prepares students to enter the Clinical Laboratory Science bachelors degree program offered jointly by OHSU and OIT in Portland. Therefore, liaison will be sought with Marian Ewell, director of the program.

I. Professional accreditation: N/A

Theo, Linda, and Marian,

I sent this proposal to you on Sept. 10, but I haven't heard back from any of you. I would like to send this on next week and would appreciate even a short word of support if you are in favor of this proposal. Thank you.

Mary Ann

RE: Curriculum Liaison on proposed termination of the Medical Technology B.S. degree at OSU and implementation of a Pre-clinical Laboratory Science option in General Science

The attached abbreviated Category I proposal describes the reasons for the proposed termination of the Medical Technology B.S. degree at OSU.

The attached Category II proposal describes a proposed Pre-Clinical Laboratory Science option in General Science.

Please review the attached materials and send your comments, concern, or support to me by September 28, 2007. Please note that a lack of response will be interpreted as support.

Thank you for your time and input.

Mary Ann,

Sorry to have overlooked replying.

From the point of view of the Department of Microbiology, this is certainly the right thing to do. The reasons are well stated in the justification document.

Thanks,

Theo

Subject: Re: FW: Liaison on proposed changes in Medical Technology degree at OSU

Mary Ann,

Hi and please accept my apologies for the delay in getting back to you, things have been very hectic. I have looked over the proposal that was sent to the OSU Curriculum Council. I agree and support the proposed changes as stated. The current Medical Technology degree at OSU as stated is confusing and this change is appropriate.

With the degree being transferred to General Science, my one concern is that OSU students will be adequately advised. OSU has been a main resource of students for this Clinical Laboratory Science Program and additionally OSU students have shown a high success rate in the program. I would not want that to change.

Hope this is what you are looking for.

Dear Marian,

I have sent this proposal to our Curriculum Council, but they need a written statement of support from you before it can go forward. This can be via e-mail. I would appreciate it if you could look over the proposal and reply with a statement of support and/or any concerns that you have. Thanks so much.

Subject: RE: Cat I but you may decide you don't need to review it

Gina,

I emailed the Cat I proposal for the Termination of the B.S. in Medical Technology around to the committee members last month and there were no questions or issues raised with it. So consider it approved by the B&FP committee.

Frank
