

Memorandum of Understanding between the MRE Foundation, Inc. (MRE) and the North American Association of Fisheries Economists (NAAFE)

MRE and NAAFE acknowledge that a Memorandum of Understanding (MOU) between the organizations is mutually beneficial. It will raise the profile and professionalism of both organizations.

The responsibilities under the MOU are identified below:

MRE:

1. Will acknowledge NAAFE on the front cover of the journal *Marine Resource Economics* with the statement “published by the MRE Foundation, Inc., in association with the North American Association of Fisheries Economists.” Please note that if IIFET also signs a similar MOU with MRE, its name will be listed along with the NAAFE name.
2. Will select five (5) *Marine Resource Economics* Associate Editors from the NAAFE membership. This affiliation will be identified on the inside front cover of *Marine Resource Economics* in the list of Associate Editors.
3. Will select three (3) *Marine Resource Economics* Advisory Board members from the NAAFE membership. This affiliation will be identified on the inside front cover of *Marine Resource Economics* in the list of the Advisory Board members. One of these three *Marine Resource Economics* Advisory Board members will be designated as the liaison between MRE and NAAFE.

NAAFE:

1. Will assist MRE in obtaining subscriptions as follows. Every biennium, immediately following the NAAFE Forum, the NAAFE Business Office will provide a database containing names, email and mailing addresses of NAAFE members to MRE. MRE may use this information to send mailings offering *Marine Resource Economics* subscriptions to NAAFE members. The NAAFE Business Office will assist by advising on and distributing mail announcements periodically through its electronic distribution lists, to both current and previous NAAFE members. A link will be provided from the NAAFE website to that of *Marine Resource Economics* to facilitate subscription.
2. NAAFE letterhead and website will acknowledge the association with MRE .
