Reference List
Fisheries Management Training and Education Related Research and Commentary
Laura W. Jodice
December, 14, 2007

Introduction: This list includes references that discuss training issues for universities, scientists, managers and stakeholders involved in fisheries management. Smith (1914) and Prince (1924) provide the earliest discussion of fisheries management training needs. This list is provided to help facilitate development of training projects/programs and funding support for fisheries management capacity building. Please contact the author at jodicel@yahoo.com regarding additions, suggestions or questions.
