## Employment

The success of the Intramural Sports Program relies heavily on the services of student officials and supervisors. Each year more than \$20,000 is earned by over two hundred students employed to carry out these important functions. Any currently enrolled OSU student with an interest or background in any of the team sports offered by the Intramural Sports Program is encouraged to apply.

**No experience is required because the Intramural Sports staff conducts training clinics at the beginning of each term to teach the skills needed.**
