From the January 12, 2012 Graduate Council Minutes:

Theresa moved to postpone the Botany & Plant Pathology graduate program review to fall 2012 with a provision that, by the first day of fall term, the documentation and review team would be in place and scheduled for fall term. Failure to do this WILL result in a suspension of admission to the graduate program; Denise seconded the motion. Cass and Andrew opposed and Vinod abstained; the motion passed.
