OSU Colleges & Majors: Head Advising Office Location and Phone in Parentheses
Options within specific majors listed in italics

College of Agricultural Sciences
(Bexell Hall 210, 541-737-2211)
Agricultural Business Management
Agricultural Sciences
Animal Sciences:
  Pre-veterinary Medicine  Animal Management
BioResource Research
  Numerous Interdisciplinary options – see: http://agsci.oregonstate.edu/brr/students/options
Botany
  Botanical Research  Fungal Biology
  Plant Ecology & Systematics
  Plant Molecular Genetics & Biotechnology
  Pre-Professional Teaching Botany
Crop & Soil Science
  Agronomy  Plant Breeding & Genetics  Soil Science
Environmental Economics & Policy
  Env. Economics  Env. Policy  General Option
Fisheries and Wildlife Sciences
Food Science & Technology:
  Food Science  Fermentation Science
  Enology & Viticulture
Horticulture:
  Ecological Landscapes & Urban Forestry
  Ecological & Sustainable Horticultural Production
  Viticulture & Enology  Turf Management
  Therapeutic Horticulture  Horticultural Research
  Plant Breeding & Genetics
  General Horticulture (online)
Rangeland Sciences
Sustainability Double Degree (supplementary degree that can be paired with any primary major)

College of Business
(Austin Hall 122, 541-737-3716)
Accountancy
  Accounting Information Systems
Business Administration
  Entrepreneurship
Business Information Systems
Finance
Management
Marketing
International Business can be added as an option to any Business major listed above
Innovation Management Double Degree (must be paired with a primary non-business major)

COB School of Design and Human Environment
Apparel Design  Interior Design
Graphic Design  Merchandising Management

College of Earth, Ocean, & Atmospheric Sciences
(Wilkinson Hall 104, 541-737-1201)
Earth Sciences
  Earth Systems  Ocean Science
  Geology  Geography
Environmental Sciences
  Numerous Interdisciplinary options – see: http://ceoas.oregonstate.edu/envsci/specializations/

College of Education
(Furman Hall 104, 541-737-4661)
The College of Education offers a unique Double Degree Program that allows OSU students to supplement their primary degree program with a second bachelor’s degree in Education. Double Degree students are eligible for a license to teach upon graduation. Students interested in becoming K-12 teachers should attend a “How to Become a Teacher” info session in their first few terms at OSU. Also see: http://education.oregonstate.edu/double-degree

College of Engineering
(Batcheller Hall 151, 541-737-5236)
Ecological Engineering
Nuclear Engineering  Radiation Health Physics
Bioengineering  Chemical Engineering
Environmental Engineering
Civil Engineering
Construction Engineering Management
Computer Science
  Computer Systems  Info Systems  Applied C.S.
  Electrical & Computer Engineering
  Energy Systems Engineering (OSU Cascades major, but first two years can be completed in Corvallis)
  Industrial Engineering
  Manufacturing Engineering
  Mechanical Engineering
  General Engineering (for First-Year Students)

College of Forestry
(Peavy Hall 250 541-737-1594)
Forest Engineering
Forest Engineering/Civil Engineering
Forestry
  Forest Management  Operations Management
  Forest Landscape Processes & Management
Recreation Resource Management
Natural Resources
Renewable Materials
Tourism & Outdoor Leadership (Cascades Campus Only)

College of Liberal Arts
(Gilkey Hall 213, 541-737-0561)
Liberal Studies
  Pre-Education & numerous other possibilities – see http://oregonstate.edu/cl/liberal_studies/

CLA School of Art & Communication
Art & Applied Visual Arts
  Art History  Fine Arts  Photography
Music
  Music Production  Music Education
  Instrumental Performance  Piano Performance  Vocal
Digital Communication Arts
  Media & Mgmt.  Media & Society  Media Production
Speech Communication
  Communication  Theater Arts

CLA School of History, Philosophy, & Religion
History  Philosophy  Religious Studies

CLA School of Language, Culture, & Society
Anthropology
  Anthropology/Physical Anthropology  Biocultural
  Cultural Anthropology  General Anthropology
French  German  Spanish
Ethnic Studies
Women, Gender, & Sexuality Studies

CLA School of Public Policy
Economics
  Managerial Economics  Mathematical Economics
  Law, Economics & Policy
Sociology
  Crime & Justice Studies
  Environmental & Natural Resources Sociology
Political Science
  Environmental Politics & Policy
  International Affairs  Law, Politics, & Society

CLA School of Psychological Science
Psychology

More Colleges & Majors on the back
University Exploratory Studies Program (UESP)  
(Waldo Hall 102, 541-737-8144)  
New and current OSU students have the option of being undeclared while they explore possible majors. UESP advisors help students to clarify interests, values, and abilities and to reflect upon university experiences as they relate to major options at OSU. UESP does not grant degrees but can be a temporary academic home for students until they are ready to declare a major.

*Pre-Medical Studies at OSU  
Students wishing to become physicians (M.D. or D.O.) can complete an undergraduate degree in any field of study, but they must take and finish certain required science and liberal arts courses as undergraduates prior to applying to medical school. Med schools accept students from diverse academic backgrounds, but admission is competitive. Pre-med students commonly choose majors in the colleges of Science (Biochemistry/Biophysics, Biology, Chemistry, Microbiology), Engineering (Bioengineering, Chemical Engineering, Radiation Health Physics), Public Health and Human Sciences (Nutrition & Exercise Science, Public Health, Human Development & Family Sciences), Agricultural Science (Animal Science, BioResource Research), and Liberal Arts (English, Psychology, Philosophy, Spanish).

*Pre-Pharmacy at OSU  
As with Pre-Med, students interested in becoming pharmacists (Pharm.D.) can pursue any undergraduate major as long as they meet the necessary prerequisites for Pharmacy School (which is also very competitive). OSU undergrads are lucky in that there is great College of Pharmacy right here on campus where they can get more information about becoming a pharmacist.

*Pre-Nursing at OSU  
While OSU does not offer a BSN (Bachelor of Science in Nursing), there are ways that students can prepare themselves for such a path at OSU. Some students choose to do a few years of prerequisite work at OSU before transferring elsewhere to finish the BSN. Many students choose to complete a bachelor's degree at OSU before applying to an accelerated BSN program upon graduation. Majors in the Colleges of Science, Public Health & Human Sciences, and Liberal Arts are typical and popular choices for students interested in eventually going to nursing school.

International Degree  
(University Plaza 130, 541-737-3729)  
The International Degree (ID) allows interested undergraduate students the opportunity to explore the international dimensions of their primary degree by adding a second bachelor's in International Studies in their chosen field. There are four major components to a Bachelor of Arts in International Studies from OSU: ID students complete 32 credits in addition to their primary degree. These credits include study, work, or research overseas; fourth year college level proficiency in a second language; four ID core courses; and a senior thesis that allows the student to explore the global dimensions of his/her field of study.
