Ranked #1 best small town in California 10 years ago, Ukiah has only gotten better! Two hours north of San Francisco, come see our busy AAHA certified clinic located in the heart of Mendocino County with its mild climate and proximity to more than 20 organic wineries. We are a very well-organized hospital where you will practice quality medicine and surgery alongside four other doctors and an enthusiastic, skilled support staff who work as a team. We have a licensed acupuncturist and offer both traditional and alternative medicine and treatment options. Ukiah boasts excellent schools, cultural events that are often only found in large cities (ballet, theater, symphony, etc) and opportunities everywhere for the sports minded—hiking, cycling, fishing, boating etc. Production based pay, paid time off, CE, 401(K) medical and dental, partnership potential—give us a call at 707-462-8833 and speak to Dr. Sara Rice or Dr. Katy Sommers. Email is [saraleerice@earthlink.net](mailto:saraleerice@earthlink.net). Check out our website at [Mendocinoanimalhospital.net](http://Mendocinoanimalhospital.net).
