

Seeking a part-time internist to operate within an after-hours and critical care facility nestled in the mountains of western North Carolina. You will have time to enjoy the diverse culture and mountain setting of Asheville, NC, a city consistently ranking among the top 10 places to live in the U.S. The beautiful 7500 sq ft hospital is equipped with a state-of-the-art full-service laboratory operated by an on-site pathologist, high-end ultrasound, digital radiography, monitoring equipment, and skilled and enthusiastic staff.

This individual must have excellent interpersonal and ultrasound skills, have a strong interest in oncology (preferred, but no requisite), and be willing to teach, learn and grow with us.

We will consider both board-certified and board-eligible applicants. To discuss this opportunity, please contact:
