

## The Animal Hospital and Pet Resort at Southwood

We are looking for an energetic veterinarian who strives to practice high quality small animal medicine in a new facility. Located in beautiful Tallahassee, FL, our clinic has a superb clientele who expect up to date care for their pets. New equipment includes Sedecal x-ray machine, ultrasonic dental unit with high speed hand piece, digital dental x-ray, Cardell anesthetic monitoring, and Sonoscape ultrasound. We designed and built a 6,000 square foot facility including a 2000 square foot luxury pet resort. We moved into this facility in March 2007.

The practice is located near a new, high-end, all inclusive housing development which is home to approx. 4,000 families (Southwood). Our goal is to provide the area with high quality veterinary medicine in a comfortable setting for clients and pets. This 2 doctor practice is a great place to practice the type of medicine you always wished for.

For more information, contact Dr. Sondra Brown (850) 385-8181 or email [DrBrown@Northwoodanimalhospital.com](mailto:DrBrown@Northwoodanimalhospital.com). Check out our website ([www.southwoodanimalhospital.com](http://www.southwoodanimalhospital.com)).
